"Your Home Away From Home"

RULES & REGULATIONS ON CLEANLINESS, CONDUCT, PEST CONTROL & RESUMPTION

Academic Session: 2026/2027

Dear Residents,

To maintain order, hygiene, and a pest-free environment this session, the following rules are **COMPULSORY** and will be strictly enforced.

1. ADMISSION & DISCIPLINE

- **Blacklist Active:** A blacklist of students with records of dirtiness and rudeness has been sent to the DSA. Such students will NOT be readmitted.
- **Zero Tolerance:** Any student caught violating major rules will be issued 2 warnings. On the 3rd offense = Eviction.

2. MANDATORY ITEMS AT RESUMPTION

Entry will not be granted without these:

- 1 Bottle of Insecticide (Note: A fresh bottle of insecticide must be made available every 4 months by each occupant of the room)
- 2 Bedsheets, 2 Bedcovers + 2 Pillow cases — wash every 3 days
- Mop, Broom, Dustbin, Iron Sponges, Toilet Wash, and scrub brushes for the walls of the bathroom, toilet, and kitchen, alongside a kitchen sink sieve for collecting burnt food debris
- Airtight Food Containers (compulsory — see Section 3 below)
- **Note:** If you don't have any item, it will be available for purchase at the gate.

3. FOOD STORAGE RULE (No Sacks, Bags, or Nylons)

- **Airtight Requirement:** All food items **MUST** be kept strictly in airtight containers to keep the room tidy and clean at all times. Sacks, cellophane bags, or open nylon bags of foodstuff are strictly prohibited in the rooms as they attract roaches and rodents.
- **Penalties:** Any room found with sacks, cellophane bags, or open nylon bags of food during inspection will be served a heavy penalty and fine.
- **Provisions:** Bread, biscuits, garri, rice, beans, and all provisions must be transferred into an airtight container immediately after purchase.
- **No Leftovers:** No cooked food, food wrappers, or dirty plates should be left in the room overnight. Wash plates immediately after eating.

4. ROOM & HOSTEL HYGIENE & PROFESSIONAL CLEANING OPTIONS

- **Your Core Responsibility:** Keeping your room, bed area, and personal space clean daily is your sole responsibility.

- **Optional Professional Cleaning Assistance:** Professional cleaners will be available to help with cleaning your room if you hire them. If you feel you are not up to the task or need extra support maintaining your space, you can formally hire the resident cleaners to handle it for you.
- **Beds:** Do NOT remove your bed from the bunks to the floor. Anyone found doing this will be penalized and made to get new forms.
- **Weekly Common Areas:** Every week, students are responsible for washing the Kitchen, Bathroom, Toilet, and especially the WC in their wing/room.
- **Weekly Inspection:** Rooms found dirty during inspection will be fined. The money will be used to pay cleaners.
- **Beddings:** Must be washed at least every 3 days. Random checks will be done.

5. PEST CONTROL & PREVENTATIVE MEASURES

To ensure rooms remain entirely free of roaches, rodents, and other pests, residents must strictly adhere to the following professional preventative protocols:

- **Immediate Post-Cooking Sanitation:** Clean up immediately after cooking without delay. Thoroughly wipe down your gas burner, kitchen walls, kitchen floors, and the sink area, ensuring all food particles and burnt debris are removed using your sink sieve.
- **Bin Disposal:** Dispose of all food waste in the dustbin daily and empty bins regularly. Do not let waste pile up in rooms or corridors.
- **Bedbug Prevention:** Air out mattresses weekly. Any bedbug sighting must be reported immediately to management for treatment — do not hide it, as it spreads to other rooms.
- **Insecticide Application:** Your compulsory insecticide must be utilized proactively and regularly across beds, wall cracks, and room corners.
- **Rodent-Proofing:** Seal openings or holes in your room immediately and ensure zero food items are exposed on shelves or floors.
- **Fumigation:** Management will carry out periodic fumigation/pest control exercises. All students must vacate rooms briefly when notified and cooperate fully.

6. GENERAL SANITATION

- **Monthly General Cleaning:** Once a month, all students must participate in compulsory general sanitation of the entire hostel including rooms, corridors, kitchen, and toilets.

7. TIMELY COMMUNICATION & GRIEVANCE REDRESS

- For prompt attention and timely communication, please use your profile account on **skyhostel.ng** to log any complaints or issues.
- Additionally, relay concerns directly to the porter desk for immediate action.
